FINDINGS AND DECISION

This medical fee dispute is decided pursuant to Texas Labor Code §413.031 and all applicable, adopted rules of the Texas Department of Insurance, Division of Workers' Compensation.

Background

1. 28 Texas Administrative Code §133.307 sets out the procedures for resolving medical fee disputes.
2. 28 Texas Administrative Code §133.2, titled *Definitions*, effective July 27, 2008, 33 TexReg 5701, defines words and terms.
3. The services in dispute were reduced/denied by the respondent with the following reason codes:

Explanation of benefits

- CAC-W1-Workers compensation state fee schedule adjustment.
- 899-Documentation and file review does not support an emergency in accordance with rule 133.2.
- CAC-193-Original payment decision is being maintained. Upon review, it was determined that this claim was processed properly.

- 891-No additional payment after reconsideration.

Issues

1. Does the documentation support the disputed services were for a medical emergency? Is the requestor entitled to reimbursement?

Findings

1. 28 Texas Administrative Code §133.2(3) states "Emergency--Either a medical or mental health emergency as follows: (A) a medical emergency is the sudden onset of a medical condition manifested by acute symptoms of sufficient severity, including severe pain, that the absence of immediate medical attention could reasonably be expected to result in: (i) placing the patient's health or bodily functions in serious jeopardy, or (ii) serious dysfunction of any body organ or part."

CPT code 99284 is defined as "Emergency department visit for the evaluation and management of a patient, which requires these 3 key components: A detailed history; A detailed examination; and Medical decision making of moderate complexity. Counseling and/or coordination of care with other physicians, other qualified health care professionals, or agencies are provided consistent with the nature of the problem(s) and the patient's and/or family's needs. Usually, the presenting problem(s) are of high severity, and require urgent evaluation by the physician or other qualified health care professionals but do not pose an immediate significant threat to life or physiologic function."

Review of the submitted Emergency Physician Record report indicates that the claimant sought treatment for back pain that began the day before. The claimant denied any new injury. The report indicates that the claimant appeared in no acute distress. The physical exam findings were negative. Laboratory studies were performed for a UTI. Claimant was discharged home two hours later in stable condition. The documentation does not support a medical emergency as defined by 28 Texas Administrative Code §133.2(3)(A)(i)(ii). As a result, reimbursement is not recommended.

Conclusion

For the reasons stated above, the Division finds that the requestor has not established that additional reimbursement is due. As a result, the amount ordered is \$0.00.

ORDER

Based upon the documentation submitted by the parties and in accordance with the provisions of Texas Labor Code §413.031, the Division has determined that the requestor is entitled to \$0.00 reimbursement for the disputed services.
